

Photograph showing existing fixings

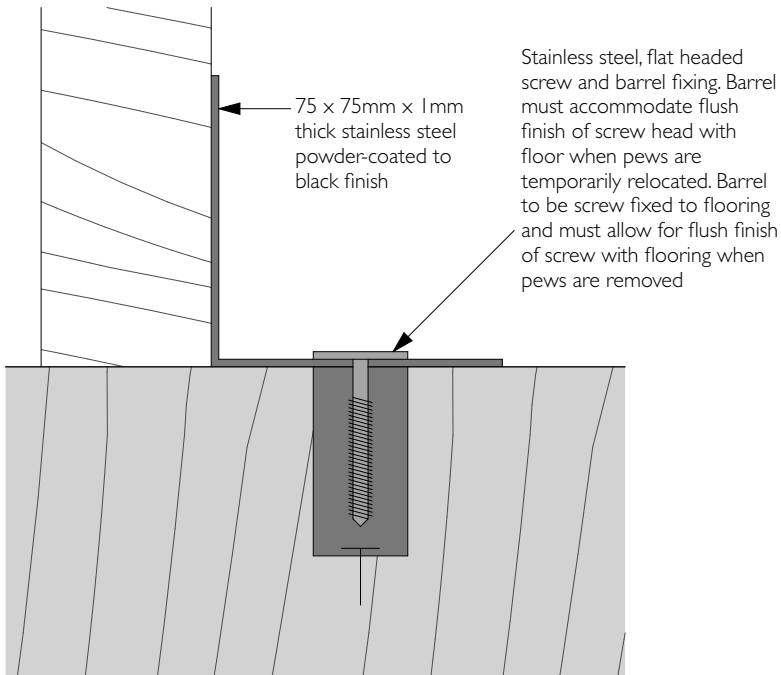

Photograph showing existing fixings and damage to the wood block floor due to relocation

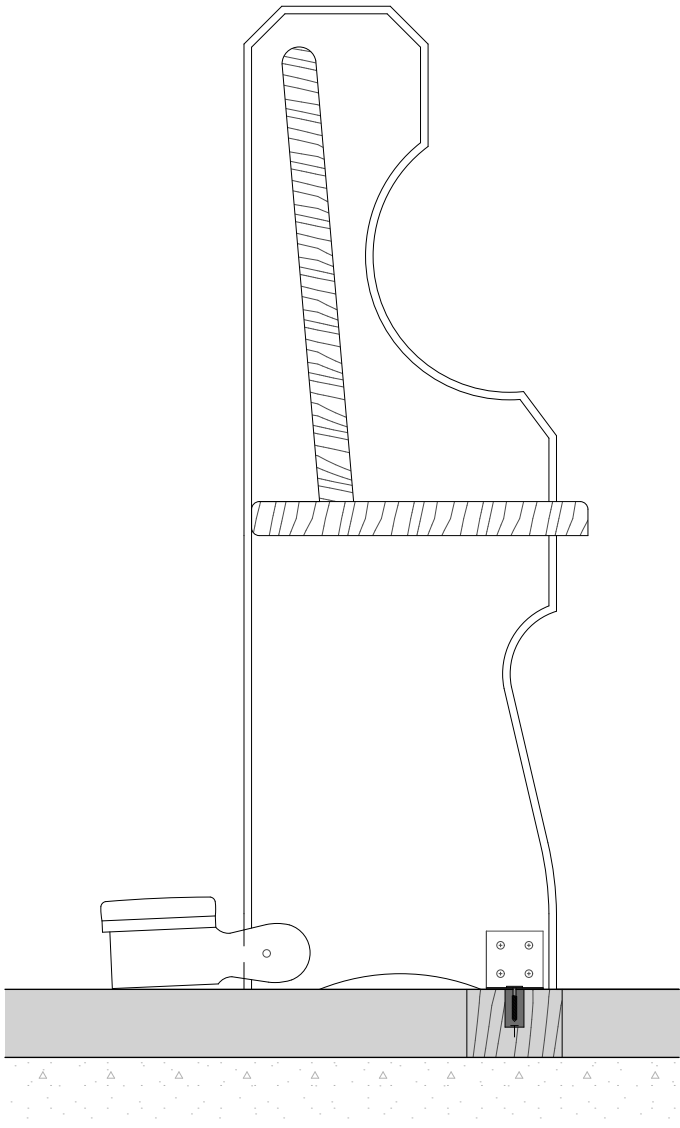

Note: Replacement of the fixings are to allow the pews to be temporarily moved when additional space is required at the east end of the Aisle and Nave. When pews have been stored, screws are to be screwed back into the barrel to finish flush with the wood block floor.

Plan showing location of new fixings, 1:50

Generic detail of bracket fixing, 1:2

Detail 05, Chair fixings, 1:20

Note: Plans and labels are to normal liturgical orientation
